

## North Elementary Early Kindergarten Students Become Published Authors, Writing and Illustrating Their Own Books

Iron Mountain, Michigan, 2/9/2022 — North Elementary has announced that 21 of its students have become published authors through a national student publishing program. As part of the publishing process, students in Early Kindergarten planned, wrote and illustrated their own books using a free publishing kit provided by Studenttreasures Publishing. The topic of their books was things we love.

The students of Beth Hart's class have been working hard on their books for 3 weeks. The idea for their Book of Love book started when they were discussing kindness and caring about people, places, and things that are important to them. "The students showed how compassionate they are at this young age. Talking about and recognizing things we love and care about will carry over to spreading kindness, love, and respect to people and places around them in hopes of this becoming lifelong habits."

The Studenttreasures publishing program provides teachers an easy way to incorporate any lesson plan – from math and science to history, art, and more – into a fun and memorable activity. Publishing a book in the classroom engages students through hands-on learning and inspires a love of reading and writing.

The best part? A classroom full of proud, smiling young authors, with a memory that lasts a lifetime, plus, a full-color, deluxe hardcover book for the teacher or school library. The students' parents also had an option to purchase copies of these unique, childhood keepsakes.
