Dear Mountaineer Families,

We have been in direct contact with Dr. Keely Mounger, Deputy Superintendent of the Genesee Intermediate School District with regard to the Flint Water Crisis and its far-reaching impacts in the greater community. As is often the case, people most impacted by a crisis are the children. Dr. Mounger has confirmed that there are additional recommended ways to alleviate the difficulties the children are facing during this crisis. We as a school family feel compelled to show compassion for the Flint School Community during this time of evident need. Ways to help are as follows:

- New or gently used children's books
- Coloring or activity books
- Sidewalk chalk or finger paint
- Crayons, markers, pencils, or erasers
- Paste, construction paper, or safety scissors (left and right handed)
- Adult and children's toothbrushes and toothpaste
- Non-perfumed lotion

Drop off points for donated items will be the office location at North Elementary and the 5-12 Central Building.

Thank you in advance for participating in this worthy cause.

The Mountaineer Educational Team
