

# **Mathseeds is an online math program that truly stands out from the rest**

**Specifically designed for students in K–3**, the award-winning lessons win on all counts. Students love the interactive activities, catchy songs and above all, the success they experience as they make **real progress with key math concepts**.

Mathseeds provides a **highly individualized learning program** for every student. You'll witness all your students improve with **self-paced lessons** that fill in gaps, move them forward and provide 'just right' challenges so that they experience success at every stage. Plus, there's heaps of **instant reinforcement** which builds their confidence from the very start!

**There's really no online math program like it. See the difference with a free trial (/schools/getstarted) today.**
