HOMECOMING 2021

The Iron Mountain High School Varsity Football team took on the Hancock Central High School Bulldogs on Friday, October 8 and **won 28-18**. "Defensively we played well, across the board. We knew they were going to pass the ball, credit to our defensive backs who stepped up and made plays," said Iron Mountain head coach Robin Marttila.

FROM THE DESK OF SCHOOL NURSE, KATHLEEN "COOKIE" BROOKS

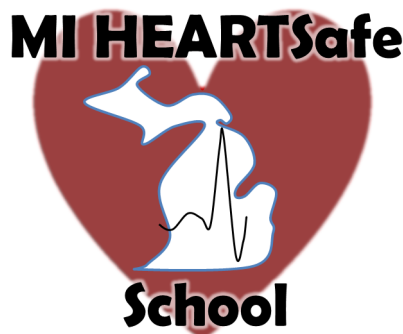

We are a MI HEARTSafe school!

Sudden Cardiac Death of the Young (SCDY) occurs when a young, apparently healthy person dies suddenly from a cardiac arrest or an unknown cause. SCDY claims the lives of more than 300 Michigan children and young adults (under 40) annually. Of those 300, approximately 34 of them are under 18.

As a school district, we want to do our part to keep our students, staff and guests from being a part of this statistic. The last few years we have been working through the steps required to become a Heartsafe school district and during the summer of 2021 we were informed that all four of our buildings that house students have succeeded at this goal.

A MI HEARTSafe designation recognizes a school's efforts to prevent sudden cardiac death by preparing for a cardiac emergency. Members of Iron Mountain Schools know how to recognize the signs of a sudden cardiac arrest and respond quickly by calling 9-1-1 and using CPR and an automated external defibrillator (AED) until EMS arrives.

Our Heartsafe designation will last for three years and after that time we will apply for renewal.. During the next three years we will continue to certify staff members and students in CPR and the use of AED. We have five AEDs and hope to add another one this year. Each building has an emergency response team and we will be running two drills per year in every building to keep skills current and sharp. It is our hope that we never have to use these skills but as a Heartsafe school, we are ready to recognize and respond quickly to a cardiac emergency anywhere in our school district.
